General information

Information on Qualis

- Qualis is an internal university evaluation program within the framework of the Quality Management System Teaching and Learning under the professional responsibility of the Chair of Differential Psychology and Psychological Diagnostics.
- Courses offered by all faculties and courses offered by study-related institutions are evaluated.

Details on the Qualis survey

- The basic form consists of 28 items, one free-response item as well as basic demographic variables.
- For purposes of analysis, individual items of the basic form are aggregated into five scales (Lecturer, Structure, Topic, Requirements, Overall Assessment) and reported in terms of these scales.
- The basic form is amended by additional scale items (e.g. presentations, work assignments, digital teaching) based on each course's specific assessments.

The Qualis-Team would like to thank all students and lecturers for their numerous and extensive participation!

General information

Are the bonus points valid until the start of the course in the next rotation?

Is it possible to get the grade 'very good (1.0)' without bonus points?

Overall, I evaluate the course with the grade

Average time spent on the course (lecture, tutorial, preparation and follow-up, and bonus points) in hours per week:

Further remarks: I especially appreciated

"Professor Schütze is always highly motivated. You can feel his passion for the lecture."

"Very well structured, interesting topics, good examples, professor is well prepared"

"Ein guter Überblick über die Sensoren wird über den Professor und seine Übungsleiter vermittelt."

"Application Examples"

"Hybrides Angebot der Vorlesung."

Further remarks: I did not like

"Information density is very high, difficult to learn for exam"

"A lot of work for the amount of CP. Seminar + oral exam"
